

Name: Jakob Dahl Hansen

Civil reg. number: 130584-████

Examination term: June 2009

ECTS points: 210

Aim of course: The constructing architect is qualified to carry out technical and administrative tasks within the building and construction sector. The graduate is capable of performing the planning and management of construction and civil works and to carry out surveying, measuring and design. The graduate can communicate with the parties involved in tendering and implementation of construction and civil works. Furthermore the graduate is capable of performing the administration and management of projects as well as the co-operation with others of different educational, language- or cultural background.

Type of course: Full-time education containing a compulsory part corresponding to 150 ECTS points and an elective part of 60 ECTS points.

Duration of course: 3 1/2 years corresponding to 210 ECTS points

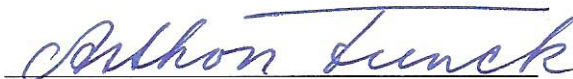

Admission requirements: Relevant vocational training or advanced secondary education

Pass criterion: The grade obtained at external examinations must be at least "02" according to the "7-point grading scale". The grade obtained at internal examinations must be at least "02" or "approved". Where combined examinations apply, the compulsory part is rated 25/30 and the elective part 5/30. The total combined grade must be at least "02" without rounding up.

Course concession: Specifies training elements completed at another training course, institution or qualifications achieved otherwise.
